Art Unit: 1625

The Status of Claims

Claims 1-23 are pending.

Claims 1-3, 5-10, and 22 are rejected.

Claims 4, 11-21, and 23 are objected.

***Claim Objections***

Claims 4, 11-21, and 23 are objected due to the rejected claims.

**DETAILED ACTION**

1. Claims 1-23 are under consideration in this Office Action.

**Priority**

2. It is noted that this application is a 371 of PCT/IB03/03784(09/08/2003).

**Claim Rejections - 35 USC § 112**

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1625

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949).

In the present instance, claim 2 recites the broad recitation between about 1:30 to 1:50, and the claim also recites more preferably between about 1:35 to 1:45 which is the narrower statement of the range/limitation.

In the present instance, claim 22 recites the broad recitation between 65 to 105<sup>0</sup> C, the claim also recites more preferably between about 75 to 95<sup>0</sup> C which is the narrower statement of the range/limitation.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1625

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1, 3, and 5-10 are rejected under 35 U.S.C. 102(a) being anticipated clearly by PCT App. (2003053909, 7/03/2003).

PCT Application discloses the following reaction process :

STAGE (1) room temperature; 4 - 5 days, room temperature  
 STAGE (2) room temperature -> -20 deg C

This is identical with the claims.

2. Claims 1, 3, and 5-7 are rejected under 35 U.S.C. 102(a) being anticipated clearly by Peptide chemistry, 31 st, (p. 57-60, 1993).

This is identical with the claims.
